We negotiated an exclusive discount for Blumberg customers for this award winning, proven application.

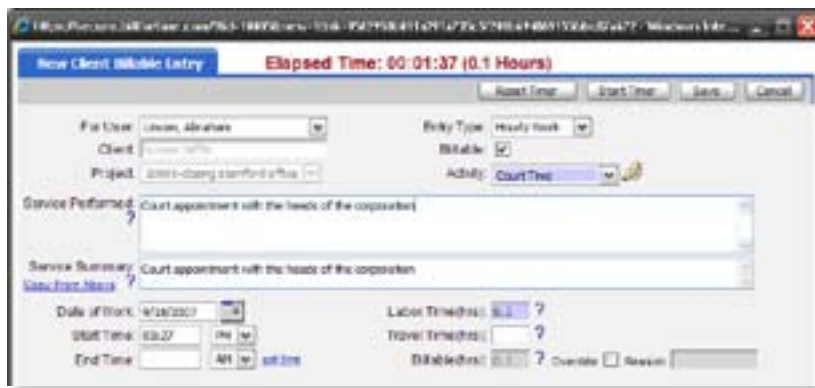

Web Based Time Tracking and Case Management for Windows and Mac

Make billing your time and managing your workload easy. Whether you are a sole practitioner or a firm of 100, lost time is lost profits. Bill4Time pulls out all the hurdles of conventional time & billing systems and lets you focus on your clients. Advanced reports help you ensure that your staff members are properly billing all of their time and expenses.

Not your traditional Time & Billing Software

A completely web-based system, with no hardware to buy or software to install. The headaches and expenses of managing servers and backups are a thing of the past. Our secure infrastructure ensures worry-free reliability, seamless remote access, and a great set of features.
