

Law Site Builder™

NEW!

Websites for Law Offices

Law Site Builder, Blumberg's new web site development service for law offices, builds web sites quickly and inexpensively so you can extend your firm's marketing to the Internet, even if you're not a programmer or graphics artist. Law Site Builder doesn't just give you tools to build a site. You'll work with people, not just templates.

Are you tired of not having a web site for your firm?

Law Site Builder is the solution.

- We'll build up to ten customized pages based on the content you provide: practice areas, attorney biographies, etc. Includes domain name registration if needed.
- Choose a look that fits your firm from our numerous designs.
- You can edit and create web pages with an easy to use web interface eliminating costly web design fees. Make changes and see them immediately.
- Includes a contact form so you can generate leads.
- Up to 60 minutes of phone support each month (during normal business hours).
- Our easy-to-use search engine optimization features improve your site's chances of being found.
- No software to buy.
- Web site and email hosting.
- Up to 10 POP email addresses for your domain.
- 30 day money back guarantee.

Consider these additional services for your site:

- Blumberg's client pamphlets provide great legal content and help your site become a destination for visitors.
- Logo design.
