Why Blumberg Kits Are Better

To order, provide the clause number. **Go to blumberg.com/clauses for the full selection, including state-specific clauses. Full Color Digital Professional Stationery

A letter spells professionalism. Full color letterhead and business cards are a surprisingly inexpensive way to enhance that impression. Order as few as 100 letterheads, envelopes and 250 business cards. For prices, go to blumberg.com/digital.

Engraving (Intaglio Printing)

A long-standing tradition of the legal profession, unquestionably makes the most prestigious impression. Its tactile finish and saturated color distinguish it aesthetically and practically from common printing processes and discourage fraudulent use of your letterhead. **Secure—it can't be reproduced on laser printers.** Prices on p. 32.

Thermography

A raised printing process with a three dimensional look and feel, can't be reproduced with office printers and is economical. Prices on p. 32.

Lithography

Flat/offset printing, can be graphically effective, particularly if used with a second color or process. Prices on p. 32.

Multiple Colors and Processes

Combining printing processes, such as engraving and lithography, adding color(s), foil stamping and/or blind embossing makes your firm stand out. Color press proofs available on request. Request quote.

How To Order

Use pages 31-32 to guide you or go to blumberg.com/stationery or call 800 221-2972 x1692

2. **Select** paper and color of paper.
3. **Select** additional processes.

DL Document Assembly

No. 1 document assembly programs for attorneys!

To compete with online providers, attorneys need to embrace technology. One technology that has proven itself over and over again for 35 years is **The DL Document Assembly Libraries!**

Document assembly without programming!

DL is a library of documents. The documents work like templates and are faster and easier to use than document assembly. The language in the forms has been gathered from the leading treatises and law firms. No programming is required on your part. Upload the program, enter your name and address and you can start your first document by answering the questions, which become more sophisticated as the complexity of your prior answers require. And there are helpful tax and related hints that appear as the document becomes more complex.

The document assembly program preferred by thousands of law offices and by the U.S. military.

- Learn the programs in minutes; no formal training needed
- Designed to be used by attorneys and staff who want to quickly and easily compose a variety of legal documents
- Easy-to-use multiple choice, yes/no, and fill-in-the-blank format allows documents to be created in under 30 minutes!
- State-specific Libraries reflect the statutes, case law, and practices of EACH jurisdiction
- Retrieve the assembled documents using your word processing software
- Free telephone support
- Generates state-specific questionnaires for client interview

"The DL Document Assembly Libraries… cover maybe 90 percent of the non-litigation materials used by many general (and specialized) practices…If anything approaches 'law office in a box' this is it."
— Michael Derevlany, Legal Tech Newsletter

These state-specific Document Assembly Libraries pay for themselves in the first use. Developed and refined with the input of thousands of attorneys who have used the DL Libraries for over 30 years. You are investing in the product proven in the real world.

The Wills Library *The No. 1 Wills & Trusts programs for attorneys!*

Prepare simple and complex wills for males and females of any marital status. You can select from various types of marital deduction, credit shelter and other estate planning trusts reflecting the January 2013 changes to the Internal Revenue Code, i.e., the American Taxpayer Relief Act of 2012. Or select less frequently used provisions such as the granting or exercise of powers of appointment, purchases of annuities, charitable trusts, supplemental needs trusts and pour-overs to inter vivos trusts.

The residuary estate may be divided into equal or unequal shares with each share being given to the beneficiaries outright or in a variety of trusts. Alternate and successor beneficiaries or classes of beneficiaries may be specified. Select with flexibility initial and successor executors and personal representatives, trustees, guardians and conservators.

Other options address disposition of realty, family-owned businesses, personal effects, cash bequests, powers of appointment, rights to invade principal of trusts, sprinkling trusts, removal of trustees, disclaimers, disinheritance of spouse or children, pensions and qualified plans, and other subjects.

The program also prepares living wills and health care documents, powers of attorney, family tree affidavits, asset summaries, execution checklists, memoranda explaining legal terms, etc. For appropriate jurisdictions, personal property memoranda, community property agreements, and waivers of rights of election may be prepared. **Cat. No. 4930, $500.00**

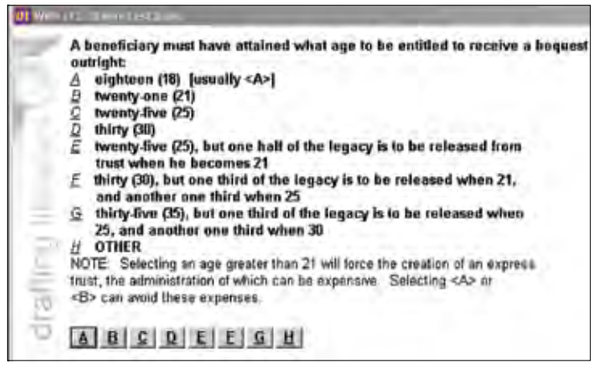
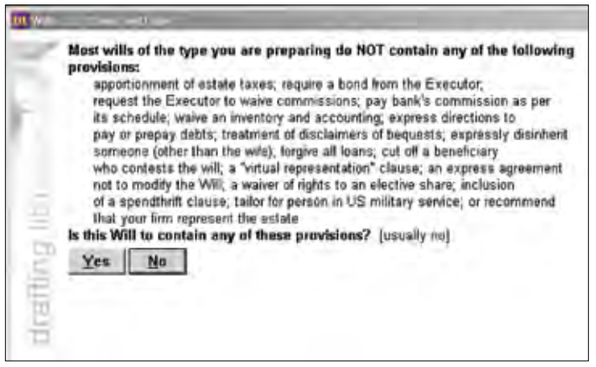
Other options address rights to invade principal, powers of appointment, disclaimers, pensions, and qualified plans, sub-S trusts, oil and mineral rights, cash bequests, removal of trustees, virtual representation and various instruments transferring property to the trustees. **Cat. "The options for the irrevocable and revocable trusts are excellent. I ordered online with expedited delivery and the trusts library was promptly received. The questionnaires cover everything I needed or may need. The fact that the program can create documents in a number of formats including Word or WP allows me to customize and further tailor the trust product, if necessary. After familiarizing myself with the software, my first trust took about ten minutes to prepare. This is my first library but I look forward to acquiring more."
— William Armstrong, Attorney, Jackson, Mississippi





System Requirements: PC with any version of Windows (32 or 64 bit) or a Mac with software to enable the Mac to run Windows programs. Requires less than 5MB hard disk space per library. Works with all versions of Word or WordPerfect and many other word processors. Requires an internal or external CD drive.

Avoiding Liability for Sexual Harassment in the Workplace Pamphlet

Many jurisdictions now have laws requiring employers to adopt policies and provide training to prevent sexual harassment.

Stopping sexual harassment has become imperative for lawyers and their clients, especially in states like New York that require employers to adopt anti-harassment policies and training. Make clients aware of the anti-harassment laws and explain how you can help by reviewing and updating contracts, policies, training and claim procedures.

Our new, all-state client pamphlet about sexual harassment in the workplace suggests practices to implement that assist your clients in maintaining a productive workplace free of sexual harassment and actions to take to reinforce positive behaviors and discourage inappropriate ones before they become the basis of litigation.

Order free samples of any client pamphlets or learn more about Blumberg marketing products for law firms at blumberg.com/marketing or call 800 221-2972 x1692. For more information about the new laws in New York read Blumberg's blog post at blumberg.com/blog.

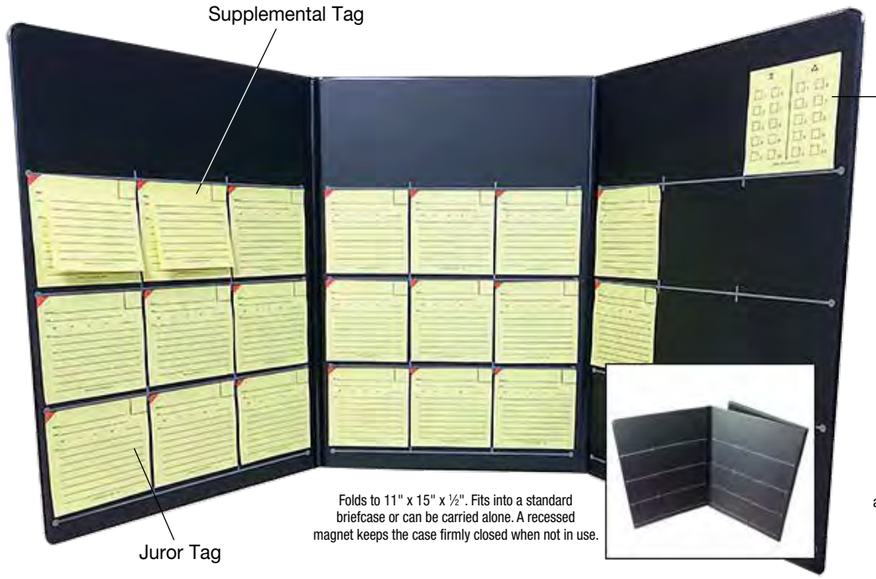
The Jury Case® "Your Voir Dire Organizer"

The Jury Case is the Voir Dire Organizer for the bench and the bar that makes jury selection more efficient, keeps the attorney connected to the jury during trial and aids in the formulation of the closing argument.



Great gift for a litigator!

The Jury Case opens to display a 32" x 15" jury selection grid across the 3 panels. It holds self-adhesive notes ("Juror Tags") lined to record pertinent information for use in the jury selection process. Each juror's seat number is prominently displayed on the upper right corner of the tags. Shift the tags around the grid as jurors are excused for cause and by peremptory challenge.

A Peremptory Tag keeps track of the challenges made by both sides. The grid duplicates a "6 Pack" or "9 Pack" seating arrangement; it adapts to other arrangements used by the court such as 7 jurors in the first two rows. 36 Juror Tags fit on the grid. The Panel Cards hold an additional 60 Juror Tags for large venires. This system works for judges, jury consultants, plaintiff and defendant attorneys, prosecution and accused.

Contents: The Jury Case tri-fold, 2 pads of Juror Tags (50 sheets per pad), 2 pads of Supplemental Tags (50 sheets per pad), 1 pad of Peremptory Tags (25 sheets per pad), 10 Panel Cards and our new Jury Poll Pad (25 sheets per pad), Operating Instructions and "The 6 Keys to Jury Selection."

"I used The Jury Case to organize my Voir Dire in complex medical malpractice cases tried in the N.Y. Supreme Court—Kings County and Westchester County—and in a products liability/medical malpractice suit tried in the Federal District Court—Manhattan. The product allowed me to better organize my Voir Dire notes and to keep track of each juror. It was particularly helpful with the large federal court panel, which is otherwise a scramble. Opposing counsel in the federal case was also impressed with The Jury Case. At the end of the trial, he asked about The Jury Case and where to purchase one."
— S.D., N.Y.C.

"I used The Jury Case for a seven-day jury selection and it worked great. I highly recommend it to all trial attorneys."
— Brian J. Panish, Esq. Panish Shea & Boyle, LLP.–Los Angeles, CA (Most 8 figure verdicts in California)

"The Jury Case system adapts to all courtroom settings and makes the selection process more organized and efficient. An excellent tool."
— James D. Dobbins, Jury Consultant, Verdix Legal, LLC–Dallas, TX

"I can't wait to use this at my next jury trial!!!" — Criminal Defense Attorney, Kew Gardens, NY
